

Repair your Safe-Away® & Trilift® equipment in Mackay

To provide you with better communications and local support Hedweld has continued to expand the Mackay branch's servicing capabilities for Safe-Away® Power Packs and Cabinets and Trilift® maintenance support product repairs.

Please update your address details for QLD Servicing – Hedweld, 37 Enterprise St, Paget QLD 4740

*The
best
team for
the job*

Local support

Hedweld have inducted field service technicians based in Mackay, with fully equipped vehicles who can provide;

- ✓ onsite installations,
- ✓ preventative maintenance, and
- ✓ breakdown repairs

on all Safe-Away ladder & stairway access systems and all Trilift products.

Need repair work done offsite?

To improve your turnaround times and reduce transport costs you can now transport all Safe-Away Access System steelwork sections and power pack cabinets and Trilift Belly Pan Hoists to our Mackay branch.

Our technicians are the **best team for the job** as they are trained, equipped and experienced.

*** Please update your address for QLD Servicing:
Hedweld Engineering
37 Enterprise St,
Paget QLD 4740**

Our Mackay branch has stock on hand for repairs which will mean quicker turnaround times for you.

Contact the Mackay branch to make arrangements.

Hedweld can also offer Service Exchange.

A Service Exchange* will allow you to keep your equipment operating and reduce downtime while our team does the testing, analysis, quote and repair work.

Hedweld Hire

Due to the increased demand for our Trilift® component handling products, Hedweld has introduced a dry hire program throughout Australia.

Hedweld Hire* gives you the option of short or long term contracts to:

- try our products prior to purchasing, or
- have your existing Trilift® equipment factory reconditioned.

To learn more about our range visit our website www.hedweld.com.au or contact us to enquire about hiring our equipment today. * Terms and Conditions apply.
